Chicago, June 10 .- The organized op Chicago, June 10.—The organized op-position to the nomination of Secretary Taft admitted itself to badly split to-day that the Taft followers insist that a scramble to the band wagon has begun. According to the closest calculations, based on figures conceded by the "allica." Taft will receive on the first ballot 551 votes, or 60 more than enough for a choice, provided the convention does not override the decisions now being made in the contested cases.

The committee yesterday decided sixteen contests, affecting thirty-six delegates. Of these, twenty-seven are Taft men and the remaining nine, all of whom are from Louisiana, have tentatively agreed that they will cast their yotes for Taft. The contests comprised the delegates at large in Louisiana and Missouri, seven districts in Louisiana, six districts in Mississippi and one in Mis-

The Louisiana contest, which was the most important of the day, resulted in a split delegation, the committee decreeing on a division to seat the Lily White or Taft delegates, and the Black and Tan with half a vote for each. This agree ment was not reached until repeated conferences and anxious telegraphing and telephoning between Chicago and Wash-ington. The decision finally reached by the committee was carried out with the full consent and approval of both Secre-tary Taft and President Roosevelt.

SHIPPERS EXASPERATED.

And Will Appeal to State Railroad

Brattleboro, June 10.—The shippers of lumber and bark from points on the West River branch of the Central Vermont railroad have become exasperated over the failure of their efforts to secure a lower freight rate on shipments from these points, and have decided to appeal to the state board of railroad commissioners.

A petition is now being prepared by E. W. Gibson of this town asking the commissioners to compel the railroad company to reduce its freight vates that shippers be given the benefit of through hilling from the points of shipment to destination and that the road-bed on the West River read be put in a safe condition. Under the present avrangement everything in carload lots is rebilled at Brattleboro to the connecting roads, thereby compelling the shippers to pay the local rates on the West River road in addition to the through rates, so that the shippers, according to their claim, are unable to compete with shippers on other roads.

Compete with shippers on other roads.

The Central Vermont company charges a local rate of 5 cents a hundred from Jamaica to Brattleboro, a distance of 26 miles, and a local rate of t Maine road charges 5 cents from Millers Falls to Boston, a distance of of the cents for the 144 miles or \$42 per carload of 30, 100 pounds. The rate from Newport to Boston, 238 miles, over the Boston and pleaded guilty for the pounds, and the rate from Marchester to Boston, 197 miles, over the Rutland road, is \$30.

McPhee was brought into court yesterday afternoon and pleaded guilty to being drunk, a fine of \$5 and costs to being drunk, a fine of \$7.70 being imposed. A charge of breach of the peace has been preferred against him and he is still in jall in default of bail of \$200.

Adhert Halliday, has been employed by the railroad for three years. He left Rutland road, is \$30.

A question will arise as to the automatic for the peace has been preferred against him and he is still in jall in default of bail of \$200.
